

COURTS All Sectors Netball League

Celebrating 25 Years – Season 2015

ASNL All Star team 2011

Group ASNL Workshop 2012

Premiership Division Game 2014

This year, the League recognizes 25 years of performing netball activities in Trinidad and Tobago. We thank all of our stakeholders for their continuing support in the growth and development of the League and of the Sport.

The League envisages a healthy lifestyle for women.

Its main objectives are:

- To provide an opportunity for working women to indulge in healthy and competitive play on a regular basis.
- To cause corporate citizens to become involved in the Netball movement.
- To provide opportunities for families to recreate together in a safe and pleasant environment.
- To make contributions toward the development of technical and administrative skills for the management of the discipline.

Over the years, the League has grown from 2 Divisions, the Championship and the Alternative, to 4; adding the Premiership at the top, and the Retro, for players over the age of 40. The number of players has increased significantly.

The League can also boast of its efforts at the training of match, bench and team officials, and players. All training is facilitated by technical and professional consultants in the various fields.

It is noteworthy that All Sectors has won the trophy for the Best Performing League, sponsored by the Trinidad and Tobago Netball Association, for three of the four years that the trophy was at stake.

It is our hope that the League will continue to grow from strength to strength as it continues its struggle for excellence in all areas of the Sport, in partnership with our various stakeholders.
